Editor's Message

Thanks to all who sent me articles for the newsletter! I really appreciate getting information and articles from our membership.

I sometimes come across articles for the newsletter in interesting places. Who knew that trying to find an online menu for a Peruvian restaurant would lead to an article on ritually sacrificed Inca guinea pigs (see pg. 6) [although the April 1 publication date of the original article did have me concerned for a moment that this was an elaborate April Fool's joke]. And continuing the "eating-out" theme, the article on a "fast food" eatery in ancient Pompeii was also interesting (see pg. 6). Similarly, following the animal theme, the shrews in the Ptolemaic-era tomb in Egypt (see pg. 9) reminded me of the guinea pigs, although they apparently weren't so fancily decorated.

SUBMISSIONS: Please send all submissions to me at the address below. Emailed digital documents are preferred. Any hard-copy item you wish returned must be accompanied by a self-addressed, stamped envelope.

The deadline for the next issue is **June 28**. Please send all items to: Marla.Mealey@parks.ca.gov or to Marla Mealey c/o California State Parks, Southern Service Center, 2797 Truxtun Rd., San Diego, CA 92106.

Save Our Heritage Organisation [SOHO] Terrace Talks: Why Old Places Matter

May 11, 11am-12:30pm
\$10 (includes light refreshments)

Marston House Museum & Gardens (3525 Seventh Avenue, San Diego 92103)

Why Old Places Matter will be discussed by three long-time SOHO leaders informed by a recent book of the same name and subtitled "How Historic Places Affect Our Identity and Well-Being." As author Thompson M. Mayes of the National Trust for Historic Preservation notes, we may not always see past bricks, mortar, and the significant people and events they contained, but historic buildings and sites play a major role in the social, psychological, and emotional fabric of our complex culture and enrich our quality of life, as individuals and collectively.

Panelists include Jaye MacAskill, SOHO's immediate past president and a professional researcher; Dan Soderberg, maker of SOHO's award-winning documentary "Four Decades of Historic Preservation in San Diego County" and a board member; and David Swarens, also a board member who twice served as president and who helped create two large historic districts in the City of San Diego. Each speaker will illustrate the book's concepts, using examples from SOHO's preservation efforts over 50 years. The concepts include memory, continuity, beauty, ancestors, creativity, community, and sustainability. Amie Hayes, SOHO's Historic Resources Specialist, will moderate the panel.

Upcoming SDCAS Meeting

*SDCAS Monthly Meetings are free
and open to the public*

**May 28 (Fourth Tuesday) 7:30 p.m.
Los Peñasquitos (see page 2 for directions)**

Title: *Watchtowers and Computers*

Presenter: Alberto Foglia

Alberto B. Foglia will present his Master's thesis on the possible functions of the turret structures on Hadrian's Wall. In the 2nd century, Roman Emperor Hadrian constructed a series of frontier works across northern Britain to consolidate this northern corner of the Roman Empire. However, how the frontier, and the component structures of the wall, operated is still debated. Alberto created a GIS to perform a viewshed analysis of the smallest structures on the Wall, the so-called 'turrets', to see how well they performed as watch towers.

He will also present on some work he has been doing on making 3D reconstructions of parts of Hadrian's Wall.

**June 22 (Summer Saturday Meeting) 8:00 p.m.
Los Peñasquitos (see page 2 for directions)**

Topic: *TBA*

Presenter: Ral Christman

Stay tuned to the SDCAS website for more information on this upcoming lecture from Kumeyaay educator Ral Christman.

The Summer Saturday Meetings will replace the usual 4th Tuesday Programs during the summer months only. There will be no 4th Tuesday Programs in June, July, or August.

The public is invited to arrive early and bring a picnic dinner, chairs, and drinks. It can get cool in the canyon at night – even during the summer, so long-sleeves, jackets, and/or blankets are recommended. Bug repellent is also recommended. SDCAS will provide dessert.

Annual People in Preservation Awards

May 30, 4-6pm at the Marston House formal gardens, 3525 Seventh Avenue, San Diego

This is [SOHO's] 37th annual People in Preservation Awards, San Diego's most prestigious historic preservation awards.

The PIP Awards are an opportunity for SOHO and San Diegans to recognize the efforts that property owners and community members have accomplished in preserving the historic resources of our region. People In Preservation encourages historic preservation and acknowledges that good preservation can come in many forms; from the restoration of the most modest residence to the grandest mansion, from our earliest structures to mid-century contributions, and includes both the private and the public sector.

The awards are held each year at the historic Marston House, one of California's finest examples of the Arts and Crafts movement, the historic Marston House was built in 1905 for George W. Marston and his wife, Anna Gunn Marston, and was designed by the internationally renowned architects William Sterling Hebbard and Irving J. Gill. George Marston is noted for many things but most prominently as a civic leader whose interest and work in historic preservation, conservation and history is well known.

Celebrate and pay tribute to those who embody the best in preservation in San Diego County. Tickets include a wine and beer reception.

PCAS Lectures

Pacific Coast Archaeological Society Lecture meetings are held at the Irvine Ranch Water District Community Room, 15500 Sand Canyon Avenue (between the I-5 and I-405) in Irvine, on the second Thursday of each month, at 7:30 pm. Meetings are free and open to the public.

- *May 9, 2019.* Ivan Strudwick: "Anaheim's Chinatown."

What is thought to have been Orange County's largest Chinatown was established in the early 1870s near the center of Anaheim, which was originally founded as a vineyard colony by Germans in 1857. From the mid-1850s to the 1880s, one of every ten Californians was Chinese. When Anaheim was incorporated in 1876, about one-sixth of the city's population was Chinese. By 1890, 75% of California's agricultural workforce was Chinese. Anaheim's "China Town" is depicted on 1907 and 1911 Sanborn maps near what was the center of the original colony at Los Angeles and Center Streets. In 1924, this small community was demolished, ostensibly for health concerns, and the last building torn down in 1940. This report describes a few artifacts that were found when this historic area was recently graded for development.

Mr. Strudwick has conducted and managed all phases of archaeological and historic projects, including survey and excavation, laboratory analysis, research, and report writing in more than 20 California counties and on three of California's Channel Islands. For the past 25 years, Mr. Strudwick has been employed as a professional archaeologist at LSA in Irvine.

- *June 13, 2019.* Barbara Tejada: "Coming Home to Siutkanga: A Journey of Research and Repatriation of the Lost Village of Encino"

Coordination to reunite and bring the collection from the "Lost Village of Encino" (CA-LAN-43), excavated in 1984-85, to Los Encinos State Historic Park began in earnest in early 2013. From the first delivery in early 2015, to the final van load in fall of 2018, the collection has undergone sorting and re-housing by a team of State Park staff, volunteers, and student interns. Along the way, new information has emerged on the lithics assemblage, olivella grooved rectangular (OGR) beads and bead manufacture, the high incidence of tarring pebbles, and the burial/cremation complex. Working with the Fernandeano Tataviam Tribe, the collection has helped instruct tribal members on lithic technology, and in turn, genealogical research sponsored by the tribe has revealed more about the ethnohistory of the village. Work continues to identify NAGPRA materials in the collection for repatriation. Sorting and cataloging this

collection will enable continued research on this important Western Tongva site.

Barbara Tejada is the District Archaeologist for the California State Parks Angeles District, covering park units in Los Angeles, Ventura and Santa Barbara counties. She has over 20 years' experience in southern California archaeology. She currently is the board chair and acting director of the Chumash Indian Museum in Thousand Oaks
